+1 (808) 426-6141
Hawaiian Ocean View, Hawaii, USA

Full stack web developer with 5+ years experience freelancing, earning consistent 5-star reviews on Fiverr. Developed web apps using Typescript, NextJs/React, NodeJs, implemented REST APIs, and databases (MongoDB, SQL).

Work Experience

Full Stack Web Developer

Jan 2020 - Present

Freelance | Remote

Developed 15+ Discord bots for moderation, automation, data analytics, and community engagement for clients across the world. Deployed Nextjs/React websites that managed user accounts and payments through Stripe

- Implemented REST APIs, MongoDB/SQL, and streamlined interactions through optimization
- Managed hosting, proxies, databases, and diagnosed issues for clients
- Supported clients with ongoing communication and updates

Projects

AdVerb – AI-powered ad & SMS copy optimizer

May 2025 - Present

<https://adverbgg.vercel.app> | Typescript, Nextjs, TailwindCSS, OpenAI API, Supabase

- Users can select tone and input custom text to receive optimized, engaging variants
- Includes version tracking, prompt presets, custom API endpoints, and a clean mobile-responsive UI
- Deployed with Vercel and backed by Supabase for versioned data storage

Portfolio Website – Personal branding & project showcase

Apr 2025 - Present

<https://guniqueg.vercel.app> | Typescript, Nextjs, TailwindCSS, shadcn/ui, Motion

- Designed and developed a sleek, responsive portfolio to showcase my work
- Deployed with Vercel for fast, serverless hosting

Vinted Discord Bot – Real-time listing notifier

Mar 2025 - Present

Freelance project | Typescript, Nodejs, Discord.js, MongoDB, Bright Data

- Demonstrates backend automation, proxy management, and external API integration
- Integrates with Vinted's unofficial API and rotating proxies to bypass rate limits
- Implements keyword filters, caching, and real-time alerts via Discord embeds

Core Skills

Typescript, Javascript, Nextjs, React, TailwindCSS, Nodejs, Express.js, MongoDB, SQL, Git, AWS EC2
